Manassas, VA 20110

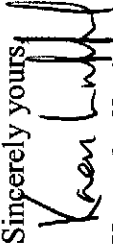

Dear Mr. May,

Thank you for supporting the 5th Annual Charity Golf Tournament which helped raise \$40,000 for Brain Injury Services.

Our organization and those individuals we serve are extremely thankful of your support. Brain injury not only impacts the individual but their support network as well. Currently, individuals may have to wait over two years for our Adult Case Management program and one year for our Pediatric Case Management Program. These funds are used towards helping the individuals we currently serve achieve their goals so that they can move on with their hopes and dreams in their life.

We hope you will continue to support this event as well as our mission. It is only through community support and involvement that Brain Injury Services, Inc. continues to be a leader in Virginia.

Sincerely yours,

Karen Luffred
Director of Administration
